

## Honouring many years of service

Weikersheim, 17 December 2024

Commitment and passion for the future of visual communication: At the end of the year, DATA MODUL honours its employees for their loyalty and dedicated support, some of which goes back decades. At the traditional Christmas party at the Weikersheim site, CEO Dr Florian Pesahl warmly thanked all employees for their commitment in 2024, paying special tribute to those who have made a significant contribution to the success and further development of DATA MODUL with their many years of service.

A total of eleven employees at DATA MODUL AG and DATA MODUL GmbH can look back on 15 or more years of service this year. Michael Scheuenstuhl, Managing Director of the Weikersheim high-tech site, thanked Michael Mohnke for 30 years, André Oechsner for 25 years and Dominik Heinze, Reinhold Martin and Matthias Olbrich for 15 years at DATA MODUL. Dr Pesahl thanked Marco Schoengen for 25 years, Jens Grumme for 20 years and Lena Uhl and Julia Kellermann for 15 years of successful work in the sales team. Doris Beetz, Head of Entertainment in the Products & Markets department, was honoured by department head Markus Hell for 25 years and Head of Development Alexander Trica thanked Raimund Muhler from his department for 30 years of commitment to the DATA MODUL plant in Weikersheim.

'These anniversaries are an impressive sign of the strong bond between our employees and the company. Their many years of loyalty and tireless commitment are invaluable to us,' explained Michael Scheuenstuhl.

'Honouring our employees has a long tradition at DATA MODUL and is an integral part of our end-of-year celebrations. The Christmas party in Weikersheim gives us the opportunity to thank our colleagues and reassure them that their work - as one of the most important pillars of our company - is central to our success and is recognised and appreciated at management level,' says Dr Florian Pesahl.

### About DATA MODUL

As a passionate enabler, DATA MODUL AG does everything in its power to turn customers' visions into reality. With a comprehensive understanding of hardware, software and services as a harmonious unit, the focus is on developing customised display solutions that precisely meet the specific needs and objectives of the customer. The outstanding core competence of DATA MODUL AG lies in customising, whereby the company not only provides products, but rather tailor-made solutions with a clear market focus. With over 50 years of experience, DATA MODUL AG represents financial stability, innovative strength and international growth. Its presence at more than 20 locations worldwide and a total area of around 40,000 square metres for production, logistics and administration enables the company to respond flexibly to global challenges.
